

DECLARATION DAY

On May 14, 1948, Israel's Independence was declared and recognized by the international bodies of the world in accordance with international law. The patent disregard for this milestone has left a void in global understanding and respect for Israel's rights, allowing for the spread of demonization and delegitimization of the Jewish people and their right to self-determination.

Declaration Day is a visionary and proactive effort aimed to increase awareness and recognition of Israel's formal rebirth in the ancestral and biblical homeland of the Jewish nation.

Today, we are fighting an existential war and we need to emphasize creative methods of protecting Israel's truth and Jewish destiny.

A unified affirmation of Israel's independence is a demonstration of our collective commitment to the legal founding of the sovereign Jewish nation state.

JOIN THE INITIATIVE

MAKE YOUR DECLARATION OF SUPPORT NOW

We must cement May 14 Declaration Day as a recognized day of note on the Israeli and international calendars, for annual observance and to globally reinforce this historical truth.

- 01** An exhibition for virtual or physical display by host institutions and organizations
- 02** Informational resources for distribution in local communities and organizations, and for use by individuals, educators, professionals and activists in collaborative programming
- 03** Collection and showcasing of affirmation from leaders and Virtual Citizens of Israel across the globe who stand in unity with Israel's Declaration of Independence
